

## **OKLAHOMA** Transportation

### **US-77/Broadway, US-77/SH-66/Second St. Resurfacing in Edmond**

**For Dec. 2022 Commission Meeting**

#### **Project Information**

- US-77/Broadway between Memorial Rd. and Second St. and US-77/SH-66/Second St. between Broadway and Sooner Rd. in Edmond will be resurfaced to extend the life of the pavement and upgrade driving conditions.
- A nearly \$9 million contract was awarded by the Oklahoma Transportation Commission in December 2022 to Haskell Lemon Construction Co.
- US-77/Broadway traffic is estimated at 56,700 vehicles on average per day as it enters Edmond and nearly 30,000 vehicles per day on US-77/SH-66/Second St. near Broadway.
- Work is expected to begin in early 2023 and with anticipated completion by fall 2023, weather permitting.

#### **Impact to Traffic**

- Motorists can expect lane closures and short-term impacts to driveways along the business route.
- Motorists also can expect rough pavement on US-77/SH-66/Second St. between Coltrane Rd. and Sooner Rd. later in the project, which ultimately will be smoothed through a diamond grinding process.
